

Hi everyone at Superdog Spectrum,

I wanted to express my gratitude to all of you for the wonderful care & love you give to my pride & joy, Blu. When I came to you over six months ago it was because Blu's vet, Wendy James, recommended you. Blu was 14 months old and gaining weight. He is a much loved dog but we can't be with him all the time and so would need to keep him at home while we work. Blu wasn't getting enough exercise and he lacked stimulation.

I have seen such a difference in Blu since he has been coming daily to be with all his friends. He loves to play, he is tired at the end of the day & always happy to return.

It takes a lot of hard work & heart to handle dogs of all sizes and personalities every day and all of you seem to enjoy your work. I feel Blu is so loved & well cared for that I never worry about him.

Thank you so much for all you do.

Carolyn, Dan, & Blu
