

Is Rover left home all alone all day? Do you dread coming home after a hard day's work to a tornado zone courtesy of Rover? Is Rover bored and needs some friends to socialize with? Are you looking for a safe, constructive alternative to an off leash park?

SUPERDOG SPECTRUM'S Dog DayCare offers your four-legged family member a home away from home. Dog DayCare gives you, the responsible dog parent, peace of mind knowing your dog is in care of our qualified caregivers.

- **Separate Playgroups** - Every dog has a specific play style, whether you have a vocal Shepherd, a vocal referee, a wee bundle of energy, or a bouncy wrestler, your dog will be carefully placed with a group of friends he/she will be compatible with. He/she will have hours of socializing... learning through play and interaction with each other.
- **Four Doggie Gymsnasiums** - Our supervised indoor play areas, with specialized rubber matting, encourage hours of fun...running, chasing, wrestling or just hanging out with a buddy.
- **Canine Condos** - Upon request, your dog is offered "down time" between play periods, to relax and enjoy a chew bone or lunch that you provide for him. Soothing music and an individual nap area add tranquility to a well-deserved afternoon nap.
- **Individual & Couple Walks** - Every dog is walked on leash by one of our Dog DayCare Caregivers throughout the day depending on the length of their visit. All results are recorded and can be reported to you at the end of the day.

These features ensure that your dog has the best possible experience while spending some quality time in a dog-centered environment under the supervision of our caring and knowledgeable staff.
